To set your default output speaker, please do the following:

- 1. Open Settings
- 2. Click on System
- 3. Click on Sound

The Sound page includes two sections separating the output and input options:

In the section that states "**Choose your output device**" select the speaker option that suits your needs. If none are available in the dropdown, it will default to your standard speaker settings.

In the section that states, "**Choose your input device**", select the "Microphone (Live Streamer CAM 313 MIC)" to begin using the Live Streamer CAM313.

Step-by-Step Guide

Detecting the Live Streamer CAM 313 on Apple

The Live Streamer CAM313 is a USB plug-and-play device; therefore, it doesn't require a separate driver installation.

In order to confirm that the device is detected properly, click on the Apple icon at the top left corner of your desktop, and click on: "**About this Mac**"

In the below screen, click on Generate "System Report"

Under **USB devices** you will find the Live Streamer CAM313 shown here:
